2ND ANNUAL

WOMEN in Tech GLOBAL SUMMIT

PARIS, 22 & 23 MAY 2023

When founding Women in Tech® 5 years ago, my purpose was to create an action-driven community committed to closing the gender gap and helping women embrace technology. We have worked ever since to create impact through programs, focusing on 4 major pillars: Education, Business, Digital Inclusion and Advocacy. More than a network, Women in Tech is today a vibrant Global Movement with over 200.000 members present in 6 continents, on a mission to empower 5 million women and girls in STEAM (Science, Technology, Engineering, Arts and Mathematics) by 2030.

It is with great pride that we are organizing the second annual Women in Tech® Global Summit in Paris the 22 & 23 May 2023 where we will gather our international community to convene, connect, debate and create concrete approaches to tackle gender inequality while making HERstory.

Let us raise the ambition on gender parity and digital inclusion, for when women rise, we all rise.

I invite you to come and inspire and be inspired. Join us at this change-making event!

Women in Tech® Global Summit: HERstory, in the making

The Women in Tech Global Summit is a 2-day event happening on the 22 and 23 May 2023 in Paris. The theme 'HERstory in the Making', celebrates women across the world who are the Shakers, Makers and Innovators of our new society and economy. The Summit will kick off in Paris on Monday 22 May for 2 days of content. Its aim is to connect, inspire and catalyse collective efforts to act for a more inclusive, sustainable and innovative STEAM ecosystem.

The event will gather over 400 delegates: thought leaders from business, civil society, Government and the Arts, from all over the world – the Makers, Shakers, and Innovators of a new era, driven by the desire to change the status quo. The HERoes who are shaping tomorrow.

This year we will focus on the topics of Web 3, Immersive tech, Cybersecurity, Sustainability, Financial and Digital inclusion, AI Ethics, Digital activism.

Join us in Paris!

ABOUT THE 1st EDITION

TESTIMONIAL OF TRUE IMPACT

"The Women in Tech Global Summit was nothing short of inspiring, empowering and exciting. It made me realize how narrow and shortsighted my vision had become, and how dissatisfied I was despite my personal achievements.

I no longer feel the need to silence myself in order not appear as a show off. I no longer feel shy and afraid to ask for more. I have been empowered to believe in myself as a brand, and to "pass the baton" to uplift other women in tech.

Cheers to all of the wonderful women (and men) who came together to make this happen. I look forward to seeing you all next year with even better stories to tell."

PRACTICAL INFORMATION

SUMMIT VENUE

The **Salle Wagram** is a historic auditorium in the 17th arrondissement of Paris, a few steps from the Arc de Triomphe. It was built in 1865. It has been listed as an official historical monument by the French Ministry of Culture since March 2, 1981.

First built in 1812 as the Bal Dourlans, the huge ballroom was designed by Adrien Alphonse Fleuret, and has been the setting for international congresses, political conferences, fashion exhibitions and dance competitions.
